PROFILE

Software Engineer with experience in developing scalable and high-performance web applications using React.js, JavaScript, and Python. Passionate about building efficient solutions, optimizing code performance, and integrating machine learning models into applications. Strong problem-solving skills with experience in data structures, algorithms, and system design.

SKILLS

- programming languages: JavaScript, python
- web development: react.js, HTML, CSS, bootstrap, typescript, Node.js.
- machine learning & data analysis: python (pandas, Scikit-learn), SQL, Excel.
- version control: Git, GitHub.

PROJECTS

Software Engineer | AI-Based Conflict Prediction Model | 2024

- Designed and trained a machine learning model to predict conflicts in Sudan with 87% in testing.
- Utilized Python, Pandas and Matplotlib for data preprocessing and visualization
- Balanced datasets through resampling techniques to improve model accuracy.

Game Developer | Traditional Game Project (DAALET) | 2023

- Designed and developed a browser-based game using React.js, JavaScript, and CSS.
- Implemented game logic, and an intuitive user interface for engaging experiences.
- Implemented a night mode feature for improved user experience in different lighting conditions.
- Developed a feature that allows users to customize the color and shape of the game board, improving personalization.
- Integrated sound effects to make the gameplay more immersive
- Ensured cross-device compatibility and responsiveness for seamless gameplay on various screens.

EDUCATION

University of Khartoum | Bachelor of Science in Information Technology | 2025

ADDITIONAL COURSES

- Meta front-end Developer Professional Certificate (in progress)
 - Google Data Analytics Professional Certificate (in progress)
-

LANGUAGE

- Arabic
- English

Front-End Developer | Personal Portfolio Project | 2024

- Designed and developed a responsive portfolio website using React.js, JavaScript, and CSS.
- Showcased personal projects, skills, and experience in an interactive and visually appealing way.
- Implemented a modern UI/UX design using Figma before development.
- Added dark mode support for better user accessibility.
